

2021 IEEE 11th International Conference on

“Nanomaterials: Applications & Properties”

Sept. 5–11, 2021, Odesa, Ukraine

SPONSORSHIP OPPORTUNITIES

The NAP–2021 Conference co-organized by the IEEE Nanotechnology Council and Sumy State University, is devoted to the most interesting aspects of modern Materials Science with the prime focus on nanoscale materials. From the low power electronics and supercomputers, to advanced drugs and personalized medicine, from new industrial applications, and renewable energy to advanced transportation and clean air technologies, nanoscience is the foundation of many of the transformational discoveries in the decades to come.

The conference combined email and social media distribution list includes over 16,000+ researchers, engineers, academic scholars and industry professionals actively working in the field of nanoscience and nanotechnology. We offer unique opportunity to promote your company as a Global Leader in the rapidly expanding market of nanomaterials and their synthesis and characterization tools. Make an impression and stay connect with the key attendees from Europe, Asia, and USA at the International Conference on “Nanomaterials: Applications & Properties”! Choose from a range of impactful and cost-effective sponsorship opportunities to increase your presence and visibility. There are many advertisement options still available, but they're going fast. Reserve yours today!

The sponsorship resources are used almost exclusively to fund our “East Meets West” travel grant program, which is designed to encourage the participation of women in science & engineering and student categories of attendees. Thus, by promoting internationally your company, products, tools, and systems with us, you will also be helping a noble cause of supporting the next generation of scientists and engineers!
